Precise Fit. Built Tough.

Drive with confidence™

All-New Construction

Built with entirely 100% new materials; not rebuilt or remanufactured.

Precision Fitment

Designed to match original equipment for easy and accurate installation.

Superior Durability

Built with high-strength components to enhance durability and service life.

That's the orange box.

When you choose a Kugel, you get more than OE-level fit. You get trusted quality backed by the Kugel reputation. Every component is built for long-lasting durability—no compromise.
